TECHNICAL SPECIFICATION

Flushman 310,
Deodorant additive , aircraft toilet

Certification: AMS 1476 and Boeing D6-17487 Revision T

Product description

Aero-Sense Flushman 310 is a deodorant additive designed for aircraft lavatory use. It acts as a detergent, disinfectant and bactericide/germicide agent for the aircraft toilet tanks. The non-corrosive formulation is highly effective and perfumed with aromatic ingredients. The blue colored, concentrated liquid must be diluted before use.

Aero-Sense Flushman 310 is AMS 1476 and Boeing D6-17487 (Revision T) certified and will not stain or leave residue.

Properties

- Physical state at 20°C:	Liquid
- Colour:	Blue
- Odour:	Pleasantly Perfumed
- pH value:	+/- 7,0
- Density:	1,0
- Solubility in water:	Completely
- Boiling point (°C):	+/- 100°C
- Flash point (°C):	≥ 93°C

Packaging

Available in 5 liter and 20 liter cans

Certification

- AMS 1476
- Boeing D6-17487 Revision T

Application

- Concentrated liquid: dilution rate : 1%
- Add the diluted solution to the recirculation toilet or holding tank.

Safety

- Review the Safety Data Sheet (SDS) & POH before use.
- Shelf life: 24 months
