

Frostman,

General non-corrosive liquid deicing fluid

Product description

Frostman Fluid is a quick-acting, liquid deicer and complies to the strictest standards. It's a safe product that melts large areas of rime, ice and snow in a very effective way. It's even effective at extremely low temperatures.

The product is totally non-corrosive and pH neutral, which are big advantages. Therefore it can be applied on a wide range of surfaces, such as: railroads, trucks, cars, decks of boats, loading docks... You can also use it to deice your car-park or fleet, and it's perfect for all applications on glass. It will not damage plastics, rubber, aluminum, steel, stainless steel,...

Frostman is the ideal product to use for general purposes.
